

RAZOR RENEW

PLEASE READ ALL INSTRUCTIONS AND WATCH INSTRUCTIONAL VIDEO(S) ON WEBSITE WWW.RAZORRENEW.COM BEFORE USING THIS PRODUCT!

Razor Renew is intended for use by persons who are 10 + years of age! Persons between the ages of 10 – 18 years must have adult supervision and/or adult guidance before using Razor Renew!

Thank you for purchasing Razor Renew! These are the instructions – front side and back side - for using Razor Renew to sharpen and smooth your razor blades, knives, and scissors.

The following is very important information about Razor Renew, regardless of which fine cutting instrument you are sharpening and smoothing:

- **SAFETY:** Always hold your Razor Renew strop by the handle – this will ensure you do not cut yourself
- Always hang your Razor Renew **waist high** with the Velcro and/or Trigger snap in a dry place. Hanging Razor Renew is the key to getting the maximum flexibility from the body of the leather. This flexibility enables the blade(s) of the razor, knife and scissors to push down into the leather much deeper for optimal sharpness and smoothness.
- The **suede leather side of Razor Renew is always used first** – this side sharpens and hones the metal of the blade(s). **The smooth leather side is always used second** – this side evens out the razor blades edges all the way across and makes them smooth.
- The Razor Renew and your razor blade, knife and scissors need to be **clean and dry**.

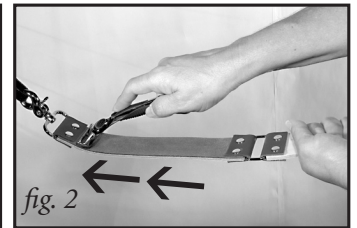

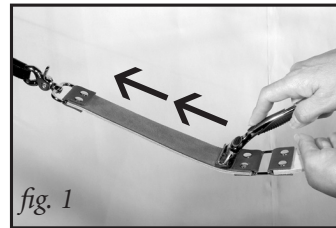

RAZOR BLADES -FOR BEST RESULTS

Getting your razor blades the sharpest and smoothest

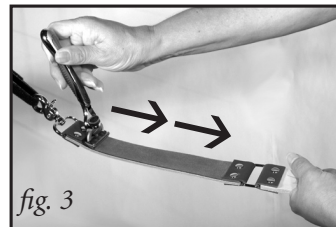

- **Push blades firmly** against the leather so all the blades are sharpened evenly.
- The razor blades are always **resting on the leather**.
- Push your razor **up as many times as you push the razor down on each side** – this ensures the leather on each side of Razor Renew **wears evenly**.
- Always push the razor blade up or down the body of Razor Renew the **opposite direction you shave** – this prevents the leather from being cut up by the blades of your razor.
- Razor Renew can be used with **all razors that have moisturizing strips** – as long as they are dry. Several types of women's razor blades have an actual bar of soap around or on the top and bottom of the blades. Even when dry the soap leaves a film on the leather that causes Razor Renew to be less effective when sharpening your razor. It is recommended with this type of razor that you let the soap get entirely used up before sharpening your razor with Razor Renew.

INSTRUCTIONS FOR SHARPENING RAZOR BLADES

1. **HANG** your Razor Renew **waist high** with the Velcro and/or Trigger snap in a dry place.
2. When sharpening your razor **ALWAYS HOLD Razor Renew by the HANDLE**.

3. Place the razor at the **bottom** of the body. (fig. 1)
4. The blades of the razor should be resting on the leather **at all times**.
5. **Apply firm pressure and push** the razor **UP** the body of Razor Renew **4 times** (fig. 1 & 2)
 - a. With the longer version of Razor Renew push the razor **UP** the body **2 times**

6. Place the razor at the **TOP** of the body. (fig. 3)
7. The blades of the razor should be resting on the leather **at all times**.

 - a. With the longer version of Razor Renew push the razor **DOWN** the body **2 times**
9. **Turn your Razor Renew to the SMOOTH Leather side**, going **8 times UP and 8 times DOWN** the body of Razor Renew following steps 1-8.
 - a. With the longer version of Razor Renew go **4 times UP and 4 times DOWN** the body of Razor Renew following steps 1-8.

(Knife and Scissor Instructions on Back)

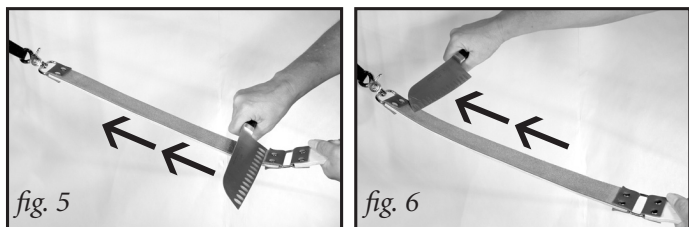

KNIVES -FOR BEST RESULTS

Getting your knife the sharpest and smoothest

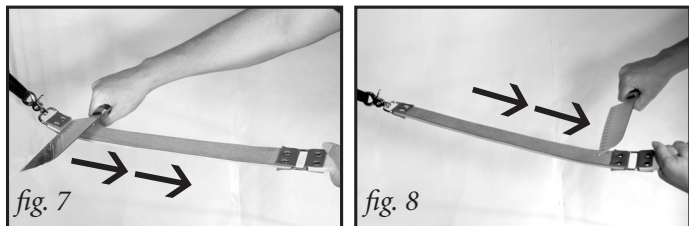

- With Razor Renew it is **very important that you push the knife across the leather the opposite way you cut with the knife** – this prevents the leather from being cut up by the blade of your knife.
- **Always touch up your knife with Razor Renew before each use** – this will optimize the life of your knife.
- **Never try to sharpen and smooth a dull knife with Razor Renew – if your knife is dull it needs to be sharpened with a stone or grinding wheel.**

INSTRUCTIONS FOR SHARPENING YOUR KNIFE

1. The **cutting surface of the knife** should be resting on the leather at a 15 – 25 degree angle and perpendicular to the body with every stroke. (fig. 5 & 6)

2. **Apply firm pressure**, simultaneously push and draw the knife **UP and ACROSS** the strop slowly from knife base to tip **4 times**. (fig. 5 & 6)
 - a. With the shorter version of Razor Renew push and draw the knife **UP and ACROSS 4 times**.

3. **Apply firm pressure**, simultaneously push and draw the knife **DOWN and ACROSS** the strop slowly from knife base to tip **4 times**. (fig. 7 & 8)
 - a. With the shorter version of Razor Renew push and draw the knife **DOWN and ACROSS 4 times**.
4. Turn your Razor Renew to the **Smooth Leather side**, going **8 times UP and ACROSS** and **8 times DOWN and ACROSS** the body of Razor Renew following steps 1-3.
 - a. With the shorter version of Razor Renew, turn to the Smooth Leather side, going **8 times UP and ACROSS** and **8 times DOWN and ACROSS** the body of Razor Renew.

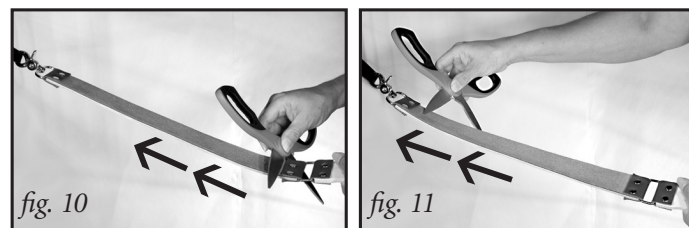

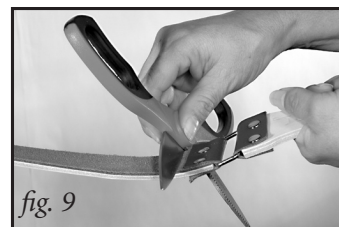

SCISSORS -FOR BEST RESULTS

Getting your scissors the sharpest and smoothest

- With Razor Renew it is **very important that you push each scissor blade across the leather the opposite way from the sharp, flat cutting, side of the scissors** – this prevents the leather from being cut up by the scissors.
- **Always touch up your scissors with Razor Renew before each use** – this will optimize the life of your scissors.
- **Never try to sharpen and smooth dull scissors with Razor Renew – if your scissors are dull they need to be sharpened with a stone, or grinding wheel.**

INSTRUCTIONS FOR SHARPENING YOUR SCISSORS

1. Press the **beveled edge** of the scissor blade against the leather – follow the same angle as the bevel on the scissor blade. (fig. 9)

2. **Apply firm pressure**, simultaneously push and draw the scissor blade **UP and ACROSS** the strop slowly from scissor blade base to tip **4 times**. (fig. 10 & 11)
 - a. With the shorter version of Razor Renew push and draw the scissor blade **UP and ACROSS** the body slowly from left to right **8 times**.
3. **Switch to the other scissor blade** and repeat steps 1 – 2.
4. Turn your Razor Renew to the **Smooth Leather side**, going **8 times UP and ACROSS** the body of Razor Renew following steps 1 – 3.
 - a. With the shorter version of Razor Renew, turn to the Smooth Leather side, going **16 times UP and ACROSS** the body of Razor Renew.
